OUR COMPANY

About Us

Since the beginning **MODERN ADVANCED CONSTRUCTION** has regarded every new project as an ultimate challenge to be won, and we have expanded our range of businesses to reach new heights with every passing contract.

We are a construction force, designing, managing and building a line-up of solutions that are all unique yet provide the same exceptional level of excellence that we set our eyes on from the start. Our effective project management, from the initial planning to completion, leads directly to the unmistakable high quality we are known for in the market. Meeting the individual needs and desires of our clientele on one front, matching them with the most elegant and solid execution is our only metric of success.

We have a fanatic tendency to surpass the expectation, weather we are building and constructing commercial, educational, health or hospitality projects. Our qualified and committed team will ensure that any project we handle is delivered safely on time, with maximum quality and within the agreed budget. No hassles. No excuses. No last-minute-surprises.

Our Vision

To be the leading trusted source of everything in construction a one stop workshop clients lean on to provide them with sophisticated building solutions, both technological and craftsmanship. We plan on expanding our growth and business to serve governments' entities, opening new branches throughout the kingdom and recruiting talents to keep our perspective fresh and upbeat.

Our Vision

To plan, design and execute amazing projects, working with clients as partners to achieve common goal of construction excellence. To seek continuous improvements and seek the highest level of quality possible. To elevate the construction services in Saudi Arabia and the gulf countries to international standards, adding local flavors and moving forward with yesterday, today and tomorrow in our mind.

Our Services

Contracting

Total construction and contacting solutions supervised by professionally talented individuals with international experience. The team has created, developed and depned projects, consistently striving to pass beyond the boundaries of quality. We also supply furniture and materials, specializing in delivering wide range of furniture, partions and door coverings.

Project Management

We provide a singular destination for project management services which successfully deliver interior It-out projects to exact standards on time and within budget.

Design & Engineering Services

With a proven expertise in space planning, we combine an innovative design approach with full understanding of technical requirements.
